

FrontLook Java Effects

Make your web site stand out with this easy-to-use companion software for Microsoft FrontPage! Turn images, logos and text messages into animated visual effects in minutes using a point-and-click interface.

Whether novice or professional, designers can...

- Turn logos and images into animated "eye-candy" effects
- Create exciting animated text messages in seconds
- Save page space and wow visitors with photo slideshows
- Impress visitors with sound and background effects
- Point-and-click to preview and add content without leaving FrontPage or cut-and-paste scripting

Image Effects

Mesmerize viewers with over 40 image processing effects - exploding fireworks, rippling lake, spotlights, ticker parade and twinkles -- plus text shadow effects that turn images and text messages into animated "eye candy."

Text Effects

Color Animation

Draw attention to text messages with over 20 text motion effects, shadow and glow effects, color animations, sound effects and hyperlinks. Create unlimited combinations of interesting text messages to keep visitors' attention.

Slideshow Effects

Present photos as eye-catching, space-saving slideshows using over 30 image-to-image transition effects, hyperlinks, sound triggers, background sounds, status bar messages and optional VCR-like interactive controls.

Scroller Effects

Create dynamic scrolling messages to display news and other information in a small amount of page space. Scroll text in multi-columns using different character styles, colors, hyperlinks, line pauses and sound triggers.

Extras

Also included are 16 additional single-text-effect applets, over 90 FrontPage themes, over 600 professionally designed pieces of clip art and over 180 audio effects files.

Look what others are saying about FrontLook Java Effects

"While these applets are very powerful and flexible,...they are equally easy to use and integrate into your web site. That's what makes FrontLook...so special. It makes the tough stuff -- simple."

-Steven Schneiderman, CoolToolAwards.com

"I have been a fan of this software company from the day I discovered it and continue to recommend it to anyone who wants to make their web site a little more special."

-Maureen Shannon, New Jersey PC Users Group

"If you develop Web sites in Microsoft FrontPage this software add on may be perfect for you." - Ramon Ray of Smallbiztechnology.com
